DEADLINE FOR CANDIDATES SET

"Our Town" by J. B. White

There is now pending in the Texas Legislature a bill known as the Franchise Income Tax, which, if enacted into law, would levy a 5 per cent. tax on the next income of every corporation in Texas, and where no net income is made, then the tax is based on a percentage of the assets of the corporation; another bill is pending which proposes to levy a 3 per cent. tax on all sales; another that proposes a personal and corporation state income tax; and numerous other bills which propose to levy special taxes on individual industries.

* * *

The revenue of the state government this year, without any new taxes, will be between forty-five and forty-six million dollars more than it was in 1933.

* * *

You hear a great deal of talk about the need for more money to carry out the state's part of the National Social Security Act. In 1936 a report of the Director of the Unemployment Insurance service in Texas shows that more than six million dollars was collected from the 1c pay roll tax. This year we have a 2c pay roll tax for unemployment insurance and 1c for old age annuity insurance, which, on the same basis, will collect $18,000,000. In 1938, the unemployment insurance tax goes to 3c; the old age annuity tax remains at 1c—so the collection will be twenty-four million dollars; and in 1939 the rate will remain the same, and the collection will again be twenty-four million dollars. In other words, without the legislature levying any new taxes at all for Social Security, the taxpayers will, by the end of the biennium for which the legislature is now making appropriations—which is 1939—have to put up seventy-two million dollars. Add this to the new state revenue since 1933, and it is easily seen that we are calling on the taxpayers to assume in the brief period of four years more than a hundred million dollars tax increase. There simply is no reason to suppose either that the state needs any more money, or that the taxpayers are able to put up any more money, regardless of where they levy the tax.

* * *

We hear a great deal of talk about needing more money for old age pensions in Texas; but the fact is that if Texas should pay old age pensions according to the average standard of the other thirty-eight states which now have old age pension laws, the cost would be only $3,000,000 and the state has over eight million dollars already available for this purpose. In other words, our law is twice as liberal as the average state, now.

* * *

One thing is absolutely certain all of the interests throughout Texas that want more money to spend are deluging the legislature with letters asking them to levy more taxes and spend more money. If the taxpayers become so interested in his own business that he forgets to write the members of the legislature and present his side of the case, then he will probably get tremendously increased taxes. Whether he knows it or not, the average taxpayer in Texas, if the present rate of tax increases goes on, will find himself spending more than half his time to earn money to pay taxes. Common sense dictates

B. SLOCOMB ANNOUNCES FOR ALDERMAN HERE

B. Slocomb today made it known that he would become a candidate for the position of Alderman of the City in the coming City election to be held on April 6.

Mr. Slocomb stated that he was making the race in answer to the request of his many friends, who point with pride to his accomplishments while serving on the City Council in years past and while he was Chairman of the Street Committee which position carries with it the ex-officio duties of Street Commissioner.

Mr. Slocomb's friends recall the excellent condition of the streets during his tenure of office and properly given credit to Mr. Slocomb who at that time had charge of such work.

Mr. Slocomb has been active in civic affairs in the City for a number of years, having served the citizens of our town as City Marshal and as a member of the Council. His record of long and faithful service, of constant watchfulness over the financial condition of the city and his patience and courteousness shown all citizens with whom he came in contact as a city official are cited by his friends in offering his candidacy to the people of Cameron.

Records Made By Texas Track Stars

Crack high school trackmen broke seven meet track records out of the 13 events run in the fifth annual invitation track meet held here Saturday March 13.

John Reagan of Houston took first place with 29 points, closely pushed by Mart with 26 points. Thomas Jefferson of San Antonio came in third with 19 1-2 points.

High point man was Billy Gillam of Mart with 13 3-4 points, made on firsts in shot and discus, second in javelin, and a share in winning the 440-yard relay.

Gillam's second place in the javelin came as a surprise, since he won the event in the state championships last year. Beating him out was Pope of

Illini Gun Molls Show Prowess

Two expert marksmen are these University of Illinois coeds, Miss Mary Margaret Smith (left), of Waukegan, Ill., and Miss Marjorie Lynn of Paris, France. Each fired a "perfect," scoring 100 of a possible 100, in a postal match with the girls' rifle team of the Carnegie Institute of Technology, Pittsburgh, Pa. Only two other girls and a comparatively few men have scored "perfects" in the many years of rifle team competition at the university.

Mrs. C. C. Seale died at the home of her daughter, Mrs. Cook in Crosby on Thursday, March 11.

Jesse James Ill At Home In City

Representative Jesse James is ill at his home in Cameron.

For three weeks he has been suffering from an attack of influenza and complications arising. He was brought home from an Austin hospital last week and does not expect to be able to return to his desk in the House for several days.

Car Owners Warned Not To Register In Other Counties

Bill Alex Bonds, tax collector, was very anxious to save car and truck owners embrassment and expense, now that registration time is at hand.

Along the borders of the county, in times past, some have registered in adjoining counties. The state law does not recognize this. Car owners are required to register their vehicles in the county of their residence.

Any car or truck registered in another county when the owner resides in Milam county will have illegal license plates and will be required to be re-registered.

All of the money for registration fees up to approximately $50,000 remains in the county and car owners should be kind to their road funds, Mr. Bonds points out.

FONTAINE PHIPPS

Fontaine Phipps, 9, died at his home in Cameron at 4 o'clock Tuesday. Funeral services were held Wednesday afternoon with interment in Little River cemetery.

He is survived by his father, Richard Phipps and several brothers and and sisters.

AUGUST HORSTMANN FOR CITY ALDERMAN

August Horstmann, alderman in the city government, is a candidate to succeed himself in that office, subject to the general election to be held on the first Tuesday in April, he announced today.

Mr. Horstmann first became a candidate for the place of Alderman four years ago because many of the citizens urged him to offer for service in this capacity. He became at once an influential and helpful member of the council. At the present time he is chairman of the powerful committee on finance, also Fire committee.

In these places as well as others Mr. Horstmann has rendered outstanding service to the people. It has been largely through his co-operation and management that the present financial condition of the city is so firmly established. A tax payer and business man, Mr. Horstmann's candidacy is ideal in its appeal to the people of the city and his friends point out that he can be of great service in the adminstration of the government.

Mr. Horstmann wants his friends to know that he greatly appreciates their tender of support and that he will do everything in his power to justify their faith in his election to this office.

TWO ANNOUNCE FOR SCHOOL BOARD HERE

It was made known to the Herald today that two prominent local citizens had announced as candidates for the place on the school board which will become vacant by the failure of Mrs. Giles McDermott and Rush Thomas to seek re-election.

Mrs. Ryan has been active in civic affairs for a number of years and has gained the confidence of the people of Cameron by her unselfish efforts in behalf of the schools and her untiring devotion to every move sponsored for the betterment of the town. She is a past president of the Parent-Teachers Association and in that capacity she received an unusual degree of co-operation from the patrons of the school and the teachers alinke.

He is at present Chairman of the Agricultural Committee of the Chamber of Commerce and has sponsored many moves which have helped the farmers and the business men of the town. He is a past official of the local post of the American Legion and has given untiringly of his efforts to the work of both of the above organizations.

MRS. MARY LAMKIN DIES HERE SUNDAY

Mrs. Mary Agnes Lamkin, 85, died at the home of her son, W. S. Lamkin at 3 o'clock Sunday afternoon, March 14, 1937.

She had been a resident of Milam county for 71 years and her passing recalls many events dealing with the early history of Texas. In Mrs. Lamkin there lived to ripe fruition the characteristics of the noble pioneer woman whose lives influenced their day and generation.

Mrs. Lamkin was born in Alabama in 1852. Her maiden name was Miss Agnes McDermott. As a child of 14 shortly after the close of the civil war she came with her parents to Texas. A covered wagon brought this pioneer family across the rolling Texas prairies to the settlements in the interior. On their first night in Milam county they camped on the banks of Little River where the Lamkin home now stands.

Mr. and Mrs. William P. McDermott, her parents, settled in the Marlow community where Mrs. Lamkin grew to womanhood. It was in that community she met and married J. L. Lamkin, farmer, at the age of 17 years. Stretching along Little River northeast of Marlow is the large McDermott estate now owned by the

TRENCH SILO AIDS DAIRY INDUSTRY

With the growth of the dairying industry in Milam, attention is directed to the comparately new and very effecient method now employed in stock feeding thru the Trench Silos. This so called burying of rough feed for storage seems worthy of consideration because of its economy in construction and operation, its freedom from the hazards of wind, rain, and fire, so prevalent in above the ground systems.

Five years ago Geo. Graves of Cameron dug the first Trench Silo

Texas House Tribute To J. K. Freeman

An interesting letter this week from a reader at Hobbs, New Mexico. He is E. J. Kostris, a former resident in Cameron. He has recently been living in Putman. "Missing a copy of the Herald is like missing a pay day," he writes. Mr. Kostris will receive his paper at his new home in Hobbs.

* * *

Tribute to the late J. K. Freeman was paid in the House of Representatives in Austin in a resolution of memoriam introduced by Representative George Mayo Newton. The resolution was also signed by Representative Jesse James and Representative Herzik.

The resolution of tribute is as follows:

Mr. Newton offered the following resolution:

H. C. R. No. 55, In memory of Hon. J. K Freeman

Whereas, In the deeply deplored passing of J. K. Freeman on February 23rd, within a short span of time Cameron, Milam County, Texas, was again called upon to surrender another of its most beloved and highly regarded citizens to the imperious summons of death; who answered that last summons of the Grim Reaper as gallantly and as preparedly as he has always answered every call in life; and

Whereas, In the State which proudly claims J. K. Freeman as its own, a deep void has been left in the hearts of all who loved and honored him for his great gifts of mind and heart, mainfest to all with whom he came in intimate contact; who gave unstintingly to every needy cause, who made great and valuable contributions to his State and his community, who denied his contributions and benefactions to no worthy enterprise, whose entire career as a citizen of Texas is eminently worthy of emulation; and

Whereas, J. K. Freeman leaves behind him a record so highly deserving of retrospection, born in Tupelo, Mississippi, a son of T. H. and Mrs. Jane Freeman, he spent his early manhood in the State, but in 1886 came to Texas where he lived and shall always live in honored memory. His young manhood was spent in teaching school in Milam County a few years later, was admitted to the bar. From 1894 to 1898, he held the post of District Attorney, also serving as Justice of the Peace in that county. A man of honest and firm convictions, fearless in his opinions and performances of duty and in his championship of the constitutional rights of the people; and

Whereas, J. K. Freeman, though wearing no crown, possessed all the princely virtues of a monarch; preached no gospel save the creed of infinite kindness, asked no reward save the satisfaction of seeing his fellow men reach their goals, using his worldly gains for the good and welfare of all humanity; and

Whereas, By his innumerable good deeds, J. K. Freeman shall enjoy the immortality that is imperishable, for it is said

"The book of life is writ in deeds alone;
No dust of Death can ever make them dim.
The records of immortal souls live on
With God, so long as man has lived with him;" and

Whereas, The contributions of J. K. Freeman to both community and State shall ever keep his memory green and have merited him the highest honor and ovation his State can pay; now, therefore, be it

Resolved by the Members of the House of Representatives, the Senate concurring, To acknowledge the loss of his inspiring presence and his splendid record before the bar of Texas, and that a copy of this resolution be spread on the memorial pages of the Senate and House Journals of the day, to designate the love and esteem in which was held this great and good soul and letting this serve as an acknowledgement of the debt Texas owes, and the tribute Texas pays, to a true son of the people; and also, be it further

Resolved, That the Secretary of the Senate and the Chief Clerk of the House of Representatives send the family of the deceased a copy of this resolution under their respective seals and that when the Senate and House adjourn today, they do so in silent tribute to a man whose name shall live long in the consciousness of his State and in the affections of his friends and sorrowing family.

NEWTON,
JAMES,
HERZIK.

The resolution was read second time and was unanimously adopted.

U. S. ENGINEERS IN CAMERON ON FRIDAY

G. A. Hathaway, United States government engineer, was in Cameron Friday doing research work on rain and weather records.

With him was O. L. Berger of the government engineering service in Mineral Wells.

They are interested in the construction of the Possum Kinghom Dam in Palo Pinto county, part of the great Brazos River project.

At Jones Prairie they found an interesting weather record owned by J. A. Bailey. The record has been kept accurately and completely for about 40 years. The record is being used as a part of the fact finding report which Mr. Hathawey and Mr. Burger will make to the government.

No dams are to be constructed on Little River but on its tributaries in Bell County dams are to be built. Little River is the largest tributary of the Brazos.

Track

(Continued from page 1)

Granger with 167 feet, 3 inches.

Sandig of Mart took second high scoring honors with 10 3-4 points. Turney of San Antonio, Thomas Jefferson, set a new record in the 220-yard dash of 23.1. The old record was 23.5 set on the Yoe high track in the county meet in 1933 by Griffis of Rockdale.

Riddle of Lockhart ran the 440-yard dash in 53 seconds to top the old record of 54.4 set at the invitation meet in 1933 by Baird of Waco.

John Reagan of Houston ran the mile relay in 3.42 to beat the invitation record of 3:46.4 set in 1936 by Thomas A Edison of San Antonio.

Four records fell in the field events. Gillam of Mart threw the discus 122 feet, 11 inches to clear by a side margin the mark of 115 feet, six inches, set by Ferguson of New Salem in 1924.

Pope of Granger upset Gillam with a throw of 167 feet, 3 inches, to clear Gillam's mark of 166 feet, six inches set last year.

Sandig of Mart jumped 20 feet, 10 inches in the broad jump to beat by nine inches the record set by Vitek for Granger in 1934 of 20, one inch.

Weyer of John Regan cleared 11 feet, 3 inches to beat the pole vault mark set by Perrin of Georgetown and Kunkel of Smithville in 1936. Their mark was 11 feet even.

More than 350 athletes competed in the events. More had been expected, but threatening weather kept some of them away. The track was in good condition for the preliminaries, but before the finals enough rain fell to slow the track. In spite of the cold, more than 200 fans stuck it out to the end.

The six highest ranking schools were John Reagan, Houston, with 29 points; Mart with 26, Thomas Jefferson, San Antonio, with 19.5; Austin with 17, Lockhart with 12 and Schulenburg and LaVernia tied for sixth place with 10 points each.

San Jacinto of Houston won first place last year but took only 4 1-2 points this year.

The outstanding athlete on the field was Ted Haese, of LaVernia. Haese won first place in high jump, second in broad jump and third in 100 yard dash.

Officials on the field were: L. C. Wood, director of start; Sam Lee, Waco, starter; W. C. Weise, clerk; C. M. Franklin, judge of finish O'Neal of Waco, L. Van Perkins and Rev. Maurice Grove were timers. Morris Ruggles, Harvey Yoe, Guy H. Haynes and Ted Matula were in charge of field events.

Cameron people opened their homes to care for 57 athletes Saturday night. The citizens and hotels were prepared to care for more than 100 boys.

NOTICE
TO DOG OWNERS

❖❖

Vaccination will continue until all dogs in the City have been immunized.

❖❖

A new and more stringent regulation has been made by the City. Last year 410 dogs were vaccinated at $1.50 per head. Only 115 were paid and the medicine alone cost $85. It will be seen that this policy was not successful.

Beginning Monday, March 15, the crew in charge of vaccination will call at the homes of all dog owners. If the owners do not have the price for vaccination their dog will be taken and placed in the pound where he will be kept for 10 days. If after that date the fee is not paid and the dog redeemed they will be disposed of. In addition a charge for keep will be made on each day the dog is in pound.

❖❖

TAKE NOTE—No dog will be excepted. Dogs that run upon the street, in yards or pets kept in the homes, will be vaccinated, all alike, for each are capable of carrying the dread disease of rabies.

❖❖ ❖❖

Your co-operation is asked so that the danger to human life may be avoided by vaccination of all dogs in the city.

"ON THE AVENUE"

Swinging merrily along to the tune of the best songs ever written by the greatest writer of songs in the world, "On The Avenue," showing at the Cameron Theatre Thursday and Friday, March 18 and 19, represents Irving Berlin at his melodious best, in a musical that is full of pep and good spirits.

With Dick Powell and Madeleine Carroll making a new and romantic twosome of musical comedy, the lively Twentieth Century-Fox musical presents a real-life romance of New York, in a show that's as big as the town. Alice Faye, The Ritz Brothers and George Barbier add both melody and mirth to the production.

* * *

"THE GREAT O'MALLEY"

The trails and successes and woes and gayeties of everyday poor folks in a great city make up the story of "The Great O'Malley," which will thrill a capacity audience at the Cameron Theatre Saturday, March 20.

Pat O'Brien—than whom no actor is more natural or more likeable gives one of the best performances he has displayed since he came under the Warner Bros. banner five years ago.

Humprey Bogart, who gained fame as the killer of "Petrified Forest," Frieda Inescort, long famous as a stage star; Baby Sybil Jason, the 7-year-old starlet from South Africa Ann Sheridan, lovely young leading woman from Dallas; Donald Crisp, Mary Gordon, Henry O'Neill and some others round out as unusually able cast.

"WE WHO ARE ABOUT TO DIE"

Hearty drama based on the conduct of men confined to a prison death-house is contained in "We Who Are About to Die," sreen offering coming to the Cameron Theatre Wednesday, March 24, with Preston Foster, Ann Dvorak and John Beal in the leading roles.

Beal portrays an innocent young man accused of murder and sentenced to be hanged. During the months he spends on "Condemned Row," waiting for the day of execution, he becomes a vital part of the aragic life acted within those gray walls. His fellow criminals represent men from every walk of life, and their various emotional reactions to the stress are poignantly revealed in the film.

* * *

"THEY WANTED TO MARRY"

Combining a hectic romance with side-plitting comedy in a manner that makes it one of the season's funniest offerings, RKO Radio's "They Wanted to Marry" is designed to raise America's laugh-pressure to a hilarious degree.

The story deals with the repeated attempts of a newspaper cameraman and a heiress to get married, and the various obstacles encountered on their road to the altar.

Gordon Jones and Betty Furness have the leading roles in the film, which is scheduled at the Cameron Theatre Tuesday, March 23.

Lotta, beautiful beyond words, wise beyond belief, played by Frances Farmer. Richard Glasgow, in love with the girl his own father desired most, played by Joel McCrea. Darie, the home-buildiner among the fighting pioneers whose loving hands raised Lotta to beautiful womanhood, played by Mady Christians. And last but not least, Swan, the lovable big Swede whose dogged devotoion to the Glasgow family surpassed even loyalty to himself, played by Walter Brennan.

EDITORIAL

Years ago our fore-fathers roamed and wandered. We, too, travel about aided by all the wonders of modern civilization. Even the schools have gone modern in this respect. They have begun traveling about to various other schools and are competing with them in various kinds of school activities. These trips encourage closer relationships between school and schools, and town and town.

Another great benefit gained is that a pupil in one department of a special study may see just how his training compares with other schools and whether he is really "up to par" in his work. A lesson in sportsmanship is taught in every contest, for there must always be a winner and a loser.

Too, there is a social aspect involved in each contest. Young people of one town and county and state become acquainted with one another. Sometimes the winners are entertained after the contest is over. The tryouts for the contest in each individual school create more diligent competition and application. It creates more enthusiasm in the work, and winners look forward with anticipation to the visits to other schools.

For the past few weeks our school has engaged in a great deal of preliminary practice before the county meet. We have been having "practice contests" in all fields.

The prospects for a winning typing team are very bright at Yoe High this week. The typing team, headed by Mrs. Elizabeth Ross, has held three practice contests with neighboring schools.

AID FOR STUDENTS

The government under the administration of the N. Y. A. has alotted $48 each month to the Yoe High School, $24 per month to the Cameron Colored School.

This money is used to pay those pupils who need work in order to remain in school, $6 per month is the largest amount for any pupil. At present 15 pupils in Yoe High and 8 in the colored school are working on this plan.

Over 12,000 boys and girls in 2,130 other elementary and high schoosl in Texas are working part-time in National Youth Administration jobs as they are in our school, according to Lyndon B. Johnson, state director.

THE WASHINGTON STAGE

REVIEWED BY

W. R. POAGE

OUR CONGRESSMAN

Washington, D. C., March 8, 1937

I arrived in Washington about daylight Tuesday morning from my trip to Brenham attending the funeral of our friend, Hon. J. P. Buchanan. Of course, I was only home a few hours, but Central Texas has never looked better to me and I was sincerely sorry that I had to return to Washington so soon, but I found a great accumulation of mail and matters demanding my attention when I got here and it has taken all week to get my desk cleaned up

On Brazas Project

On Tuesday morning I went with Senator Sheppard and Mr. John Norris of Temple to confer with Mr. Harry Hopkins of the W. P. A. in regard to the Brazos River project. As is well known, the President has approved $3,100,000 of W. P. A. funds for the work on the Possum Kingdom Dam, which is the amount that district engineers feel is necessary for the work, but the Army Engineers insisted that we build a more expensive type of dam. To do this would require a least $6,600,000 and while the district has no objection to the more expensive type of dam it does not have the money with which to build it. Last Tuesday Mr. Hopkins told us he suggested that we amend our application to the W. P. A. and ask for the full $6,600,000. Of course, he did not promise what action would be taken, but I could not but be greatly encouraged when he made the suggestion himself, as it seemed to me that he intended for us to understand that he would be favorable to advancing the full sum. The amendment is now being prepared and some action may be taken before this letter reaches Texas.

Neutrality Bill

During the past week the Senate has passed a so-called "Cash and Carry" neutrality bill, placing a ban on loans or credits to belligerents, as well as a prohibition of travel on ships of belligerents by American citizens. The bill places a broad discretion in the hands of the President to prevent the use of American ports as supply stations to belligerents and authorizes a complete embargo on not only munitions of war but other articles that the President may consider as necessary to the conduct of war. This could and probably would include oil, cotton and wheat. This legislation is intended to take the profit out of war and to make American entry less likely. I think such a policy is sound. Similar legislation will come up in the House the latter part of this week.

Big Navy Bill

Last week the House passed the great Half Billion Naval Appropriation Bill. This provides for a continuation of our Naval building program, and while it does not provide for nearly as much new construction as other nations are undertaking it does assure he maintenance of a first-classt American Navy that should be able to cope successfully with any fleet off the American Coast. I voted for this bill, as I belive that it is essential to our self defense that we have a first-class Navy. I also voted for the amendment favoring a conference of the great powers to discuss cuts in armaments. I do not know that such a conference would be successful, but we would have nothing to lose and every reduction that can be secured is just that much saved to the United States. We may be able to build as many ships as any other nation, but if we can keep them from building we can safely agree not to build and the whole world is saved a useless burden. I am sorry that this amendment was not adopted.

"We Hate War"

I think that when co-ordinated we will find that the actions of the two Houses is in perfect harmony with President Roosevelt's statement that "We Hate War," and I believe that this policy should go a long way toward keeping us out of war. What Congress is trying to do is to create a situation where no American will want this nation to engage in war, by making it impossible for any of our citizens to make a profit out of war; and at the same time to provide such an adequate defense that no foreign nation would care to engage us in war, by making it impossible for such a nation to make any profit out of war for our own citizens and all prospect of victory and therefore profit out of it for a foreign foe, we will have taken a great stride in the direction of security for our people and peace on earth.

The doctor, dean of medicine at George Washington university, is in the Philippines for four months' research work in the Culion island leper colony, residence of 6,000 lepers.

PAIN

Get rid of it

When functional pains of menstruation are severe, take CARDUI. If it doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance. Get a bottle of Cardui and see whether it will help you, as thousands of women have said it helped them.

Besides easing certain pains, Cardui aids in building up the whole system by helping women to get more strength from their food.

Lamkin

heirs of the pioneer, William P. McDermott.

Mrs. Lamkin had been ill for about 3 months. Although she had reached an advanced age, her mind was active and she continued to be interested in the modern world which grew up around her in the years that intervened from the wagon train that brought her across the prairies of Texas.

Funeral services were held from the family residence at 3 o'clock Sunday afternoon with Rev. J. Coy Williams, pastor of the First Methodist Church, preaching the funeral sermon. Interment was made in the Lamkin cemetery with the Leland Green funeral home directing arrangements.

Married to J. L. Lamkin in 1869, she was left a widow at the age of 39 to rear a family of sons and daughters.

She is survived by two sons, W. S. Lamkin, large planter and stockman, Bob Lamkin, also planter; two daughters, Mrs. Tracy Hobson and Mrs. Dave Etheridge, all of Cameron.

Pallbearers were: H. M. Hefley, Charlie Swift, Bill Story, W. T. Whatley, Bob Terry, Jeff T. Kemp.

SHE IS NOT DEAD

She is not dead, you call her dead.
You cannot see her in her glad surprise
Kissing the tear drops from your weeping eyes,
Moving about you through the ambient air
Smoothing the whitening ripples of your hair.
You call her dead.

* * *

You cannot see the flowers she daily twines
In garlands for you from immortal vines,
The danger she averts you never know
For her sweet care, you only tears bestow.
You call her dead.

* * *

Vainly you'll wait until the last trumpet sounds,
Vainly your love entombed beneath the ground,
Vainly in Kirk-Yard raise your mournful wail.
Your loved is living in some summer vale.
You call her dead.

* * *

You think her gone to her eternal rest
Like some strange bird forever left her nest.
Her sweet voice hushed within the silent grave
You call her dead.

* * *

And yet she lives and loves! Oh wonderous Truth!
In golden skies she breathes immortal youth.
Look upward where the rosy sunset beams
And her airy form amid the brightness gleams.
You call her dead.

* * *

Oh speak not thus. Her tender heart you grieve
And twixt her love and yours a barrier weave.
Call her by sweetest name, your voice she'll hear
And through the darkness like a star appear.
You call her dead.

* * *

Lift up your eyes—She is no longer dead!
In your lone path the unseen angels tread!
And when your weary night on earth shall close
She'll lead you where eternal summer blows.

that he spend a little time now in writing his representatives and Senators to try to prevent new taxes.

In 1936, the federal, state and local tax bill in Texas was 68 million dollars, while the total net income of every citizen in Texas who had a net income of five thousand dollars or more was, according to the last printed reports of the Treasury Department only 129 million dollars. This, of course, means one thing—and that is that if you were to confiscate all of the income of the wealthy class—you would not have half enough to pay the combined tax bill. It means another thing: regardless of how the taxes may be levied, these constant increases of state taxes are going to bear very heavily on the little man, as well as the big man. Increased taxes mean less money for the average man who falls in the lower income brackets to spend for the necessities of life, and it means less money for the man of wealth to invest in order that he may provide employment and may maintain the industry which he represents.
